

STABLE FUND

FUND DETAILS AT 31 OCTOBER 2008

Sector: Domestic AA - Prudential - Low Equity
Inception date: 1 July 2000
Fund manager: Ian Liddle. (Foreign assets are invested in Orbis funds.)

Fund objective:

The Fund aims to provide a return that exceeds the return on call deposits plus 2%; on an after-tax basis at a rate of 25%. It also seeks to provide a high level of capital stability and to minimise the risk of loss over any two-year period.

Suitable for those investors who:

- Are risk-averse and require a high degree of capital stability.
- Require a reasonable income but also some capital growth.
- Are retired or nearing retirement.
- Seek to preserve capital over any two-year period.

Compliance with Prudential Investment Guidelines:

Retirement Funds: The portfolio is managed to comply with the limits of Annexure A to Regulation 28 of the Pension Funds Act. Exposures in excess of the limits will be corrected immediately, except where due to market value fluctuations or capital withdrawals, in which case they will be corrected within a reasonable time period. Allan Gray Unit Trust Management Limited does not monitor compliance by retirement funds with section 19(4) of the Pension Funds Act (item 9 of Annexure A to Regulation 28).

Price: R 21.85
Size: R 20 971 m
Minimum lump sum: R 5 000
Minimum monthly: R 500
Subsequent lump sums: R 500
No. of share holdings: 55
Income distribution: 01/10/07 - 30/09/08 (cents per unit) Total 108.30
Average annual management fee for October (excl VAT) 1.33%

Distributes quarterly. To the extent that the total expenses exceed the income earned in the form of dividends and interest, the Fund will not make a distribution.

Annual management fee:

The annual management fee rate is dependent on the return of the Fund relative to its benchmark. The benchmark is the return of call deposits (for amounts in excess of R5m) with FirstRand Bank Limited plus 2%, on an after-tax basis at a rate of 25%, over a rolling two-year period. The fee hurdle (above which a fee greater than the minimum fee of 0.5% is charged) is performance equal to the benchmark minus 5%. For performance equal to the benchmark a fee of 1.0% (excl. VAT) per annum is payable. The manager's sharing rate is 10% of the under- and outperformance of the benchmark over a rolling two-year period and a maximum fee of 1.5% (excl. VAT) applies. The annual management fee is calculated on the daily value of the Fund excluding any assets invested in the Orbis funds. Assets invested in the Orbis funds incur a management fee. These along with other expenses are included in the Total Expense Ratio.

COMMENTARY

October was characterised by extreme volatility in asset prices as investors tried to adjust to the concept of a world in recession. The rand ended October at R9.78 per US dollar, but traded in a range between R8.19 and R11.85 per US dollar during the month! Fortunately the Fund was able to increase its offshore exposure early in the month before the substantial weakening of the rand.

The Fund took advantage of the weakness in the equity market to close a substantial portion of its hedge against stock market declines. This has had the effect of increasing the net equity exposure of the Fund.

Remgro and Richemont have been substantial contributors to the Fund's recent outperformance. The two companies have recently been restructured so that the Fund now holds a direct rather than an indirect interest in British American Tobacco plc (BAT). BAT is now one of the Top 3 positions in the Fund.

Although BAT has obtained a secondary listing on the JSE, it is classified by the Reserve Bank as an 'inwardly-listed' foreign security. BAT is thus included with foreign assets in the asset allocation table on this page. The Reserve Bank has granted a two-year exemption period for the Fund to reduce its foreign holdings back down to the 20% maximum limit.

*A Total Expense Ratio (TER) is a measure of a portfolio's assets that are relinquished as operating expenses. It is expressed as a percentage of the average value of the portfolio, calculated for the year to the end of September 2008. Included in the TER is the proportion of costs that are incurred by the performance component, fee at benchmark, trading costs (including brokerage, VAT, STT, STRATE and insider trading levy) and other expenses. These are disclosed separately as percentages of the net asset value. A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. The information provided is applicable to class A units.
