Fund Objective and Benchmark

The Fund seeks higher returns than the average of the Asia ex-Japan equity markets, without greater risk of loss. The MSCI All Country Asia ex-Japan (Net) (US\$) Index is the Fund's benchmark (the "MSCI Asia ex-Japan Index"). This index also includes exposure to the currencies associated with its constituent stockmarkets. The mix of currencies in the MSCI Asia ex-Japan Index is the Fund's "currency benchmark". The currency benchmark represents the mix of currencies in which the Fund would invest if the Portfolio Manager were impartial between all currencies. In practice, the Fund's currency exposure is managed relative to the currency benchmark.

How We Aim to Achieve The Fund's Objective/Adherence to Objective

The Fund is actively managed and is designed to remain continuously fully invested in, and exposed to all the risks and rewards of, selected Asian equities outside of Japan. The Fund expects to be not less than 80% invested in Asian equities outside of Japan but may invest in other equities, including Japanese equities. The Fund identifies as Asian equities those equities of companies who are domiciled in Asia, whose securities trade on an Asian stockmarket or whose business is primarily located in or linked to Asia. These equities are selected using extensive proprietary investment research undertaken by the Portfolio Manager and its investment advisors. Orbis devotes a substantial proportion of its business efforts to detailed "bottom up" investment research conducted with a long-term perspective, believing that such research makes superior long-term performance attainable.

The lower the price of a share as compared to its assessed intrinsic value, the more attractive Orbis considers the equity's fundamental value. The Portfolio Manager believes that over the long term, equity investing based on this approach offers superior returns and reduces the risk of loss.

Exchange rate fluctuations significantly influence global investment returns. For this reason, part of Orbis' research effort is devoted to forecasting currency trends. Taking into account these expected trends, the Portfolio Manager actively reviews the Fund's currency exposure and may therefore use forward currency contracts to provide protection against exchange risks in the context of the management of its assets and liabilities.

The Fund does not seek to mirror the MSCI Asia ex-Japan Index and may deviate meaningfully from it in pursuit of superior long-term capital appreciation.

Since inception and over the latest 10 and five-year periods, the Fund has outperformed its benchmark net of fees. The Fund will experience periods of underperformance in pursuit of its objective of creating long-term wealth for investors.

Past performance is not a reliable indicator of future results. Orbis Fund share prices fluctuate and are not guaranteed. Returns may decrease or increase as a result of currency fluctuations. When making an investment in the Funds, an investor's capital is at risk.

Risk/Reward Profile

- The Fund is aimed at investors who are seeking a portfolio the objective of which is to be fully invested in, and exposed to, Asian equities outside of Japan at all times.
- Investments in the Fund may suffer capital loss.
- Investors should understand that the Portfolio Manager generally assesses an equity investment's attractiveness using a three-to-five year time horizon.

Management Fee

As is described in more detail in the Fund's Prospectus, the Fund's various share classes bear different management fees. The fees are designed to align the Manager's and Portfolio Manager's interests with those of investors in the Fund. With respect to the Fund's Investor Share Class, the fee is structured as follows: a fee is charged based on the net asset value of the class. The fee rate is calculated weekly by comparing the class' performance over three years against the MSCI Asia ex-Japan Index. For each percentage point of three year performance above or below that benchmark's performance, 0.04 percentage points are added to or deducted from 1.5%, subject to the following limits:

- Maximum fee: 2.5% per annum
- Minimum fee: 0.5% per annum

For a description of the management fee borne by the Fund's other share classes, please refer to the Fund's Prospectus.

Fees, Expenses and Total Expense Ratio (TER)

The relevant class within the Fund bears all expenses payable by such class, which shall include but not be limited to fees payable to its Manager, Portfolio Manager and additional service providers, fees and expenses involved in registering and maintaining governmental registrations, taxes, duties and all other operating expenses, including the cost of buying and selling assets.

Where an investor subscribes or redeems an amount representing 5% or more of the net asset value of the Fund, the Manager may cause the Fund to levy a fee of 0.75% of the net asset value of the Fund shares being acquired or redeemed.

The annual management fees charged are included in the TER. The TER is a measure of the actual expenses incurred by the class over a 12 month period, excluding trading costs. Since Fund returns are quoted after deduction of these expenses, the TER should not be deducted from the published returns. Expenses may vary, so the current TER is not a reliable indicator of future TERs.

Legal Notices

Returns are net of Investor Share Class fees, include income and assume reinvestment of dividends. Figures quoted are for the periods indicated for a \$10,000 investment (lump sum, for illustrative purposes only). Annualised returns show the average amount earned on an investment in the Fund/share class each year over the given time period. This Report does not constitute advice nor a recommendation to buy, sell or hold, nor an offer to sell or a solicitation to buy interests or shares in the Orbis Funds or other securities in the companies mentioned in it.

Collective Investment Schemes (CIS) are generally medium to long-term investments. The value of an investment in the Fund may go down as well as up, and past performance is not a reliable indicator of future results. Neither the Manager nor the Portfolio Manager provides any guarantee with respect to capital or the Fund's returns. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Commission and incentives may be paid by investors to third parties and, if so, would be included in the overall costs. Individual investors' performance may differ as a result of investment date, reinvestment date and dividend withholding tax, as well as a levy that may apply in the case of transactions representing more than 5% of the Fund's net asset value. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. The Fund invests in foreign securities. Depending on their markets, trading in those securities may carry risks relating to, among others, macroeconomic and political circumstances, constraints on liquidity or the repatriation of funds, foreign exchange rate fluctuations, taxation and trade settlement.

Fund Information

The country and currency classification for equity securities follows that of third party benchmark providers for comparability purposes. Based on a number of factors, including the location of the underlying business, Orbis may consider a security's classification to be different and manage the Fund's exposures accordingly.

Fund Minimum

Minimum investment amounts in the Fund are specified in the Fund's Prospectus, provided that a new investor in the Orbis Funds must open an investment account with Orbis, which may be subject to minimum investment restrictions, country restrictions and/or other terms and conditions. For more information on opening an Orbis investment account, please visit www.orbis.com.

Clients investing via Allan Gray, which includes the Allan Gray Investment Platform, an Allan Gray investment pool or otherwise through Allan Gray Nominees, remain subject to the investment minimums specified by the applicable terms and conditions.
