Fund Objective and Benchmarks

The Yen Classes of the Fund seek higher returns in yen than the Japanese stockmarket, without greater risk of loss. The Euro Class of the Fund seeks higher returns than the Japanese stockmarket hedged into euro, without greater risk of loss. The TOPIX (gross) (the "TOPIX Yen") is the Yen Class' benchmark, while the TOPIX (gross) hedged in euro (the "TOPIX Euro") is the benchmark of the Euro Class.

How We Aim to Achieve the Fund's Objective/Adherence to Objective

The Fund is actively managed and is designed to remain continuously fully invested in, and exposed to all the risks and rewards of, selected Japanese equities. The Fund identifies as Japanese equities those equities of companies which are domiciled in Japan, whose securities trade on a Japanese stockmarket or whose business is primarily located in or linked to Japan. These equities are selected using extensive proprietary investment research undertaken by the Portfolio Manager and its investment advisors. Orbis devotes a substantial proportion of its business efforts to detailed "bottom up" investment research conducted with a long-term perspective, believing that such research makes superior long-term performance attainable. The lower the price of a share as compared to its assessed intrinsic value, the more attractive Orbis considers the equity's fundamental value. The Portfolio Manager believes that over the long term, equity investing based on this approach offers superior returns and reduces the risk of loss.

All share classes invest in a portfolio of Japanese equities selected by the Portfolio Manager. However, while the currency exposure of the Yen Classes remains as fully exposed to the yen as practicable, the Euro Class is hedged into, and therefore largely exposed to, the euro. The Euro Class is designed for investors who measure their returns in euro and who wish to be invested in Japanese equities without being exposed to fluctuations in the yen-euro exchange rate.

The Fund does not seek to mirror the TOPIX Yen/TOPIX Euro and may deviate meaningfully from it in pursuit of superior long-term capital appreciation.

Since inception and over the latest 10 and five-year periods, both the Yen and Euro Classes have outperformed their respective benchmarks net of fees. The Fund will experience periods of underperformance in pursuit of its objective of creating long-term wealth for investors.

Risk/Reward Profile

- The Fund is aimed at investors who are seeking a portfolio the objective of which is to be fully invested in, and exposed to, Japanese equities at all times.
- Investments in the Fund may suffer capital loss.
- Investors should understand that the Portfolio Manager generally assesses an equity investment's attractiveness using a three-to-five year time horizon.

Management Fee

As is described in more detail in the Fund's Prospectus, the Fund's various share classes bear different management fees. The fees are designed to align the Manager's and Portfolio Manager's interests with those of

investors in the Fund. With respect to the Fund's Investor Share Classes, the fee is structured as follows: a fee is charged based on the net asset value of the class. The fee rate is calculated weekly by comparing the class' performance over three years against the TOPIX Yen or TOPIX Euro, as applicable. For each percentage point of three year performance above or below that benchmark's performance, 0.04 percentage points are added to or deducted from 1.5%, subject to the following limits:

- Maximum fee: 2.5% per annum
- Minimum fee: 0.5% per annum

For a description of the management fee borne by the Fund's other share classes, please refer to the Fund's Prospectus.

Fees, Expenses and Total Expense Ratio (TER)

The relevant class within the Fund bears all expenses payable by such class, which shall include but not be limited to fees payable to its Manager, Portfolio Manager and additional service providers, fees and expenses involved in registering and maintaining governmental registrations, taxes, duties and all other operating expenses, including the cost of buying and selling assets. However, the Manager and the Portfolio Manager have agreed that in the current calendar year, except for specified exclusions, operating expenses attributable to the Fund's Investor Share Classes will be capped at 0.20%. Please refer to the Fund's Prospectus for a description of the fee cap applicable to its other share classes. Each cap will be automatically extended for further successive one year periods unless terminated by the Manager or the Portfolio Manager at least three months prior to the end of the then current term. The operating expenses that are capped are all expenses, excluding the Manager's and Portfolio Managers' fees described above under "Management Fee," the cost of buying and selling assets, interest and brokerage charges.

Where an investor subscribes or redeems an amount representing 5% or more of the net asset value of the Fund, the Portfolio Manager may cause the Fund to levy a fee of 0.25% of the net asset value of the Fund shares being acquired or redeemed.

The annual management fees charged are included in the TER. The TER is a measure of the actual expenses incurred by the class over a 12 month period, excluding trading costs. Since Fund returns are quoted after deduction of these expenses, the TER should not be deducted from the published returns. Expenses may vary, so the current TER is not a reliable indicator of future TERs.

Notices

UCITS V Disclosure for the Orbis SICAV Funds

The UCITS V Directive came into force in Luxembourg on 1 June 2016 (the “Effective Date”). The general objectives of UCITS V are to increase protection and transparency for investors by (i) enhancing the rules on the responsibilities of fund depositaries, (ii) introducing remuneration policy requirements, and (iii) imposing a rigorous and uniform sanctions regime across EU Member States.

Under the new rules, UCITS funds must appoint a single authorised depositary responsible for, among other things, safekeeping and segregation of fund assets, monitoring cash movements to and from the fund, and overseeing the performance of the fund manager’s key functions. Importantly, under most circumstances, depositaries now have strict liability for the loss of any fund assets held in custody.

To reflect the new rules, Citibank Europe plc, Luxembourg Branch, the entity serving as the Orbis SICAV’s custodian, paying agent, administrator, domiciliary, registrar and transfer agent was appointed by the Orbis SICAV in the role of depositary. Accordingly, the Custodian and Paying Agent Services Agreement dated 20 August 2007 has been amended and restated. To compensate Citibank for the expansion of its role and potential liability, an annual fee of 0.25 bps (or 0.0025%) of assets under management has been payable by the Orbis SICAV funds since the Effective Date.

Returns are net of Investor Share Class fees, include income and assume reinvestment of dividends. Figures quoted are for the periods indicated for a ¥10,000 or €10,000 investment (lump sum, for illustrative purposes only). Annualised returns show the average amount earned on an investment in the Fund/share class each year over the given time period. This Report does not constitute advice nor a recommendation to buy, sell or hold, nor an offer to sell or a solicitation to buy interests or shares in the Orbis Funds or other securities in the companies mentioned in it.

Collective Investment Schemes (CIS) are generally medium to long-term investments. The value of an investment in the Fund may go down as well as up, and past performance is not a reliable indicator of future results. Neither the Manager nor the Portfolio Manager provides any guarantee with respect to capital or the Fund’s returns. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Commission and incentives may be paid by investors to third parties and, if so, would be included in the overall costs. Individual investors’ performance may differ as a result of investment date, reinvestment date and dividend withholding tax, as well as a levy that may apply in the case transactions representing more than 5% of the Fund’s net asset value. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. The Fund invests in foreign securities. Depending on their markets, trading in those securities may carry risks relating to, among others, macroeconomic and political circumstances, constraints on liquidity or the repatriation of funds, foreign exchange rate fluctuations, taxation and trade settlement.

Fund Information

Prior to 29 November 2002 the Orbis SICAV Japan Equity Fund—Yen class was a British Virgin Islands investment company, Orbis Japan Equity (Yen) Fund Limited.

The country and currency classification for equity securities follows that of third party benchmark providers for comparability purposes. Based on a number of factors, including the location of the underlying business, Orbis may consider a security’s classification to be different and manage the Fund’s exposures accordingly.

Fund Minimum

Minimum investment amounts in the Fund are specified in the Fund’s Prospectus, provided that a new investor in the Orbis Funds must open an investment account with Orbis, which may be subject to minimum investment restrictions, country restrictions and/or other terms and conditions. For more information on opening an Orbis investment account, please visit www.orbis.com.

Clients investing via Allan Gray, which includes the Allan Gray Investment Platform, an Allan Gray investment pool or otherwise through Allan Gray Nominees, remain subject to the investment minimums specified by the applicable terms and conditions.
